

~~Ocean Club Condos: Sales Centre Opening Soon~~

~~BuzzBuzzHome Corp.~~

October 25, 2010

~~Ocean Club's~~ [\[map\]](#) sale centre is opening soon but we got a special peek inside.

A joint project of ~~Graywood Developments~~ and ~~Beaverhall~~, Ocean Club is set to become one of the hottest developments on the Etobicoke waterfront.

Ocean Club is close to urban life, surrounded by rich outdoor green areas, but so chocked full of amenities that you may never wish to leave the building.

Designed by ~~Page + Steele~~ / ~~IBI Group Architects~~, the tower will rise 37 storeys, complimented by an 8 storey boutique residence.

The glass exterior will look brilliant reflecting the bright blues of the lake.

Grand entrance to a soaring three-storey lobby.

The rooftop patio will surely make you feel as though you are sunbathing on a yacht, with furnishings and BBQ area. Other amenities include an indoor salt water pool and water-cascading hot tub feature with wraparound outdoor deck.

A 19,000 sq. ft landscaped area will surround Ocean Club.

The area adjacent to Ocean Club is an outdoor dream, with miles of walking paths and trails.

Very close to downtown Toronto with a spectacular view across the lake.

All this, starting in the low \$200,000s! **Registration** is now open and will be open to the public in the coming weeks. Get in on it!
