

Ocean Club Condos Sales Sizzle

December 6, 2010

Recently, [Graywood Developments Ltd.](#) and [Beaverhall Homes](#) opened [Ocean Club](#) on Etobicoke's waterfront in the Humber Bay Shores redevelopment, and sales have already reached nearly 70 per cent! Purchasers realize just what a unique lifestyle opportunity [Ocean Club](#) offers. Imagine living in the midst of parks, trails and the shoreline of Lake Ontario – and being only minutes from downtown Toronto! This new residential hotspot is easily accessed by highways, and shopping along the Queensway is handy.

[Graywood](#) and [Beaverhall](#) enlisted a dream team of designers to create buildings worthy of this extraordinary setting. The renowned Page + Steele/IBI Group Architects designed the 37-storey glass condominium and 8-storey boutique residence with their lakeside location in mind. Sure to become an area landmark, the point tower has a sloped, mast-like roof that suggests images of sailboats. Strybos Barron King has designed 19,000 square feet of fabulous landscaping for the community, inspired by the oceanfront condos of Florida, and the dynamic urban lifestyle on Vancouver's waterfront.

Residents of [Ocean Club](#) will enjoy the use of out-of-the-ordinary amenities such as a trendy bistro at the base of the building. There's nothing like this in the Humber Bay Shores area, so

2 of 2

this inviting eatery is sure to become a favourite gathering spot. For the interior amenities, the developers enlisted Tomas Pearce Interior Design Consulting Inc., which has brought a breath of fresh lake air to the condominium's inviting ambience. The feeling begins in the grand and glamorous three-storey glass-walled

lobby. And imagine having an indoor salt-water pool and water-cascading hot tub with a wraparound outdoor deck right in your home! The design includes an 8th floor landscaped outdoor terrace with furnishings and a barbecue, as well as a fitness centre, TV lounge and elegant dining room with outdoor terraces, billiards room, and two pet-grooming rooms.

Tomas Pearce also appointed the stunning model suite that showcases the quality, panache and sumptuous features available at [Ocean Club](#). The studios, one-bedroom, one-bedroom + den, two-bedroom and two-bedroom + den suites, range in price from just the low \$200,000s.

The Presentation Centre is located at 128 Marine Parade Drive (continuation of Park Lawn, south of Lakeshore Blvd.) For hours and more information, visit www.oceanclubcondos.ca or call 416-255-4663.
